SimpleShare® for Ultra-Wide Pana Displays

21:9 Pana 5K LCD

Jupiter Systems Pana displays present unique collaboration equity building experiences for hybrid models.

With its dedicated ultra-widescreen aspect ratio compatibility, SimpleShare® was designed to be a simple yet powerful tool to help facilitate better collaboration amongst you teams AND a way to make the optimal use of the increased 21:9 real estate afforded by Pana.

With multiple contributors concurrent visual interaction support for both local and remote attendees, SimpleShare takes your corporate collaboration experience to the next level!

Tailor made for Jupiter's 5K LCD Pana portfolio products, SimpleShare is natively designed for the ultra high resolution and unique 21:9 display aspect ratio. With the extra workable space, intuitively accessible with up to 4 simultaneous applications being run remotely or locally with both annotation capabilities, brainstorming sessions will run as a breeze.

Cohesively integrated with the most popular collaboration platforms on the market. SimpleShare is engineered to unleash creativity from unnecessary complexity with ad-hoc meeting launcher for Teams, Zoom, Meet and others without wasting time for long setups.

KEY FEATURES

- Agnostic calendar integration

- Quick start Adhoc meeting button for Teams, Zoom, Google Meet, etc
