

MMK-G1-CBF-T

Mud Ring Mount Kit for Cameo® Flush Mount Keypads

The MMK-G1-CBF-T mud ring mount kit is an optional accessory for use with a Crestron® **C2N-CBF-T** or **C2N-CBF-P** Cameo Flush Mount Keypad. It is designed to compensate for drywall cutout imperfections, providing a grated surface suitable for the application of drywall compound for a finished appearance. It can also be used to adapt the keypad to an existing 1-gang electrical box, allowing the excess area around the keypad opening to be filled, sanded, and painted.

Notes:

This product may be purchased from an authorized Crestron dealer. To find a dealer, please contact the Crestron sales representative for your area.

A list of sales representatives is available online at www.crestron.com.
