CEN-IO-RY-204

Wi-Fi® Network I/O Extender with 4 Relay Ports

- Compact, cost-effective wireless network I/O extender
- Communicates to the local network over Wi-Fi® wireless communications
- Up to five wireless access points can be memorized
- Provides four relay ports
- Installer setup via Crestron Toolbox[™] software or web browser
- Supports TLS 1.2 and Local Authentication security protocols
- Powered via included 5 VDC power pack
- Compact, stackable IFE micro form factor
- Surface or DIN rail mountable
- Available rack mount and pole mount options

The Crestron® CEN-IO-RY-204 is a compact and cost-effective wireless I/O extender designed to easily expand the available relay ports within a commercial or residential system. A small form factor allows the CEN-IO-RY-204 to be placed just about anywhere, with the option to attach it to a flat surface or DIN rail using the included mounting bracket. The four onboard relay ports enable direct integration with all kinds of third-party equipment.

The CEN-IO-RY-204 communicates to the local network over Wi-Fi® wireless communications, allowing the connected equipment to be remotely controlled and monitored from a computer or tablet. Power is conveniently supplied to the CEN-IO-RY-204 via an included 5 VDC power pack.

Security Protocols

The CEN-IO-RY-204 supports the following security protocols to help protect against service interruptions and malicious intrusions:

- TLS 1.2 for control system connections
- Local Authentication for console and control system connections

Advanced Wi-Fi Wireless Performance

Crestron enhanced Wi-Fi performance is optimized to deliver fast, dependable wireless communications with a 50 ft (15 m) omnidirectional range (conditions permitting). The choice of 802.11 a, b, g, and n protocols affords reliable, high-speed wireless connectivity in most RF environments. Up to five wireless access points can be memorized for easy connectivity within larger networks.

Integrator Friendly Enclosure

The CEN-IO-RY-204 features the Crestron IFE form factor, a compact Integrator Friendly Enclosure design that fits almost anywhere and enables a variety of installation options. Its shape allows multiple CEN-IO and other IFE compliant devices to be stacked together. Using the included mounting bracket, it can be fastened to a flat surface or snapped onto a standard DIN rail. Rack mount and pole mount kits are also available.¹
